Art Unit: 3654

The drawings were received on 7/21/03. These drawings are accepted.

Claims 1-8 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The following claims are incomplete because they omit recitation of essential steps, elements, or structural cooperative relationships of elements (see MPEP § 2172.01):
"wherein...web" (claim 1, last 6 lines)

All claims should be revised carefully to correct all other deficiencies similar to the ones noted above.

Claims 1, 4, 5, 8-11,13-19, 22 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Perini (US 4487377). See at least figs. 7 and 8. The "transfer pad" reads on the portion of drum 41 where the suction device is located. Note the severing roll 43 which can also be considered an interference device.

Claims 2,3,6,12,20, 21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Perini (US 4487377).

Air knives and water knives are old and well known in the art and the alternative use of either of them would have been an obvious matter of design choice to a person having ordinary skill in the art based on factors such as preference, design criteria, space optimization, and costs. Servo motors are old and well known in the art and the alternative use of a servo motor to direct the movement of the severing means would have been an obvious matter of design choice to a person having ordinary skill in the art based on factors such as preference, design criteria, space optimization, and costs.

Art Unit: 3654

Applicant's arguments with respect to claims 1, 9, 14, 15 have been considered but are moot in view of the new ground(s) of rejection necessitated by the new limitations in those claims.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
